

Date: 1/20/16

Wednesday Challenge Form

Group Members: Alvin Kang, Ethan, Logan

Problem Statement: Design a handout that can be mass produced for a cheap price and is cheap.

Approach: To represent the storming and overtaking of the opponents' tower, I designed a small catapult that can be made in about 10 minutes, and costs 49 cents per unit.

Solution: In the popularity test, I took 2nd place, and Cole, Keilah, and Ian's team won.

Lessons Learned: Think of multiple possibilities before settling on a final decision
