

Date: 4/6/16

Wednesday Challenge Form

Group Members: Alvin, Keilah, Cole, Ian

Problem Statement: Design a mentor gift for the Robotics mentors that can be personalized, and are “cool.”

Approach: Our design was a tower that would play popular quotes said by each mentor. The tower would also be able to be used as a speaker.

Solution: The winning idea was a standard for each mentor with 589 on it.

Lessons Learned: Keep things simple for success.
